SUMMARY

Full-Stack Developer | Software Developer

Proactive Full-Stack Developer with hands-on experience in React, TypeScript, Node.js, Python, and ASP.NET Core through internships and real startup projects. Skilled in building fast, scalable, and user-friendly digital experiences. Adept at integrating APIs, collaborating in Agile teams, and delivering production-ready solutions. Seeking a frontend or full-stack role to contribute technical expertise and innovative problem-solving.

WORK EXPERIENCE

Frontend & Backend Developer Intern — Ledgr

Remote | Sept 2025 – Nov 2025

- Built and maintained frontend features using React and TypeScript.
- Developed backend functionality using Python, Node.js, and ASP.NET Core.
- Led a small development subgroup, ensuring tasks were completed on time and to technical standards.
- Integrated REST APIs and contributed to Agile sprint planning.

Frontend Developer Intern – Intellik (Startup)**Remote | Aug 2025 – Oct 2025**

- Developed responsive, component-based UIs using React, TypeScript, and optimized React hooks.
- Integrated RESTful APIs, improving UI performance by 35%.
- Collaborated with designers and backend developers in 2-week Agile sprints to deliver new product features.

Job Shadowing Intern – Open Vantage**Gauteng, South Africa | Jul 2024**

- Assisted senior developers in optimizing SQL queries, achieving a 20% faster runtime.
- Observed full Software Development Life Cycle (SDLC) including sprint reviews and stakeholder meetings.
- Gained exposure to enterprise-grade backend systems and database structure design.

Participant – Journey Investec**Gauteng, South Africa | Aug 2024**

- Collaborated in a cross-functional team to design a scalable fintech business solution.
- Implemented Agile workflows using Jira for sprint planning and backlog tracking, increasing delivery efficiency by 15%.
- Presented final prototype and business pitch to Investec mentors.

Projects

Agri-Energy Connect – C#, ASP.NET Core, Entity Framework, SQL, Razor Pages

Developed a full-stack platform for farmers to manage renewable energy products.

- Implemented role-based access control and dynamic product filtering.
- Designed a custom UI with Tailwind and ensured data security with model validation.

Portfolio Website – HTML, CSS, JavaScript

Created a personal portfolio to showcase projects and skills.

- Designed a responsive, animated UI highlighting technical and design capabilities.
- Includes skills, resume download, and contact form.

Payments Portal – React, TypeScript, Node.js, Firebase, Tailwind CSS

Developed a secure and responsive payments management web app for handling digital transactions.

- Implemented **real-time payment tracking** using Firebase Firestore and serverless functions.
- Designed a **modern, intuitive UI** with Tailwind and reusable React components.
- Integrated **Node.js APIs** for secure transaction validation and authentication.
- Focused on scalability and maintainability through modular architecture and clear state management.

<https://github.com/Mikaeeel-codex/PaymentsPortal>

Property Rent Management System (In Development) – Python (Flask), SQLite, React (Typescript), Tailwind CSS, Node.js

Currently developing a full-stack property management web app to automate rental tracking and tenant communication.

- Implements **tenant profiles, rent statements, and payment status tracking**.
- Includes **WhatsApp integration** for sending monthly rent notifications.
- Designed for scalability with modular backend structure and clean UI templates.

EDUCATION

Bachelor of Computer and Information Sciences in Application Development

IIE Varsity College

- Graduated with a solid foundation in software engineering, systems design, and full-stack development.
- Demonstrated consistent high performance in technical modules, showcasing analytical strength and problem-solving ability.
- Applied academic knowledge in practical projects using C#, Java, SQL, and web frameworks to deliver functional application prototypes.

Reference letter and Certificates

- Reference letter and Certificates available upon request.

TECHNICAL SKILLS

Languages: Python, JavaScript/TypeScript, C#, SQL, HTML, CSS

Frameworks/Libraries: React, ASP.NET Core, Bootstrap

Databases: MySQL, MongoDB

Tools: Git, GitHub, Jira, Visual Studio, VS Code, PyCharm, Firebase

Design & UI: Figma, Tailwind CSS

Testing & APIs: JUnit, RESTful APIs

SOFT SKILLS

- **Collaborative Mindset:** Experienced working in Agile sprints with cross-functional teams.
- **Analytical Thinker:** Quickly identifies bugs and optimizes code logic.
- **Deadline-Driven:** Delivers quality work under pressure
- **Detail-Focused:** Writes clean, efficient, and maintainable code.
- **Adaptable Under Pressure:** Meets tight sprint deadlines while maintaining quality.
